

CHAOSCULPT BASS

THE ULTIMATE FUZZ PEDAL FOR BASS

OUT 9V DC (neg center, $\geq 130\text{mA}$) **IN**

X-FREQ
Crossover frequency selection.
Below this frequency, the signal will stay clean. Above this frequency, the signal will enter the fuzz circuit.

FUZZ
Amount of fuzz in the circuit.

BASS / MID / TREBLE
3 band active EQ located at the end of the circuit.
Bass EQ band: $\pm 14\text{dB}$ @80Hz
Mid EQ band: $\pm 14\text{dB}$ @250Hz/500Hz/1KHz
Treble EQ band: $\pm 14\text{dB}$ @5KHz

MIX
Set the mix between the clean lows and the fuzzed highs.
Turn left for more clean lows, turn right for more fuzzed highs.

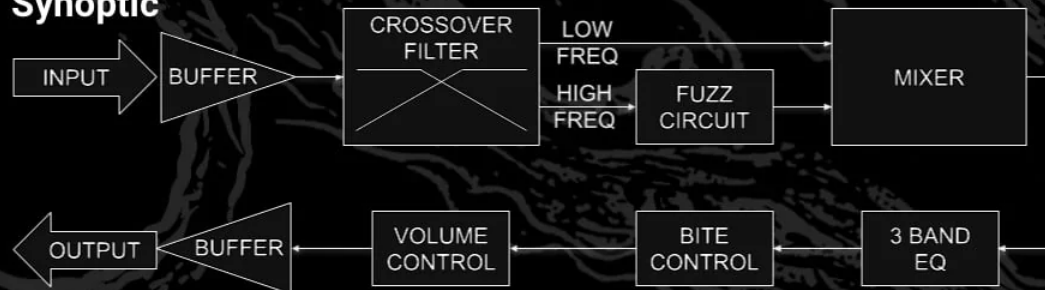

VOLUME
Output volume of the CHAOSCULPT.

BITE
Add more bite to your tone.
Selectable 0dB/+3dB/+6dB @3KHz.

FREQ
Frequency selection for the MID EQ band:
250Hz/500Hz/1KHz.

LET'S TURN THIS THING ON!
Stomp it for immediate pleasure.
